

AW 2023

In our NEV workshop, where we make room for new and different ideas, we design each of our jewellery based on the motto "Always New Always Colourful" and produce every step of it with the meticulous handwork of our craftsmen.

Our constantly updated collections, we present it to the likes of women who have unique, strong styles, keep up to date and never stop being the way they want as a wish.

We are very happy to meet you after all this journey!
